

Biography

Stavros A. Antoniou was born in Athens, Greece. He received his undergraduate degree in Thessaloniki, Greece and postgraduate clinical and research training in Greece, Germany and the United Kingdom. He holds a PhD in minimally invasive surgery, a Master Degree in Public Health and Health Business Administration and he is Fellow of the European Board of Surgery. His scholarly work is focused on synthesis of evidence (meta-analysis, meta-regression, trial sequential analysis, network meta-analysis) and he has performed extensive research on the quality of scholarly work. His recent research work focuses on the quality of clinical practice guidelines and advanced guideline development methodology. He is a GRADE methodologist and currently the chair of the EAES Consensus & Guideline Subcommittee. He has a track record of over 130 publications in peer reviewed journals, an h-index of 23 and citation count of >1600. He has served as head or member of several guideline development groups, he is associate editor and member of the editorial board of numerous peer-reviewed journals and he serves as a reviewer for governmental and non-profit grant awarding bodies of Greece, Cyprus, Italy and Canada. He is currently scientific collaborator at the European University Cyprus.
