Dear colleagues,

It gives me a great honor to serve on an EAES Executive Board as an internal auditor.

I am an Assistant Professor in the Endoscopic, Endocrine Surgery and Coloproctology Clinic (EESCC) at the Military Medical Academy in Sofia, Bulgaria. I joined the EESCC in 2007 as a Resident in General Surgery and after successfully completing my residency I was awarded the General Surgery specialty in 2008. Since 2015 I have been appointed as an Assistant Professor in the EESCC and I obtained MD-PhD degree in 2016.

I am very actively involved in the surgical professional community in Bulgaria, both through service and teaching. As a member of the Bulgarian Surgical Society, I have helped organize several international surgical meetings including the National Conference of Coloproctology in 2013, and 2015, the XIV National Congress of Surgery in 2014 / 2016, and the IV National Congress of Immunology in 2014. I am also a member of the EAES and have participated in several meetings organized by the society, including the 22nd, 23rd, 24th, 25th and 26th International Congresses of the EAES.

I also lead the General Surgery course at the Military Medical Academy, both lectures and practice, for the medical students from the University of Sofia. The class size is of about 30 students per term, and I have discovered that teaching brings me a great sense of achievement. It also makes me very motivated to be knowledgeable and familiar with the state-of-the-art surgical procedures and to introduce the students to the latest research in the field.

I believe that my commitment to service, research and the field of surgery in Bulgaria was the reason why I was awarded the prestigious award of Best Young Doctor in Sofia for 2014. I am especially proud by this recognition as I was selected in an anonymous nomination process open to all physicians in Bulgaria.

I am very interested in joining the EAES Executive Board elections because it represents an excellent opportunity to further my expertise. I am also very enthusiastic about the possibility to be involved in providing an internal control system for all legal matters of EAES, reads and approves the minutes of all executive and daily meetings and organization of election process.

I would welcome the chance to discuss my application further, and so please do not hesitate to contact me if my application is of interest.

Best regards,

Dr Vasil Kyosev MD-PhD
