Department of Gastrointestinal Surgery and Transplant Surgery

Chief Professor C. Staudacher

2014 Medical student - University Vita - Salute San Raffaele

Department of Gastrointestinal Surgery and Transplant Surgery

Chief Professor R. Rosati

The Department of Gastrointestinal Surgery of San Raffaele Hospital in Milan is a specialised centre in oncological surgery of upper and lower gastrointestinal system, bariatric surgery, kidney and pancreas transplants. During this period, as a medical student, I was involved in clinical management of surgical patients. I took part in elective surgical procedures and in organ explants as first assistant and transplants. I was involved in clinical and laboratory research on the identification of T cell neoepitope in colorectal cancer by profiling of somatic mutations of expressed genes.

November 2015 – January 2017 Resident – University of Milan

Ospedale Uboldo Cernusco sul Naviglio – Department of Surgery

Chief Dr F. Paladino

Department of Surgery of the Ospedale Uboldo in Cernusco Sul Naviglio. I gained experience in clinical management of surgical patients, basic surgical techniques and endoscopic procedures (EGD, colonoscopy).

February 2017 – April 2017 Resident – University of Milan

Chief Dr M. Sallusti

Department of Emergency Surgery of the Policlinico Hospital in Milan. During this period, I was involved in clinical management of patients in the Emergency Department and in the Emergency Surgery Department. I gained experience in basic surgical emergency procedures.

April 2017 – October 2019 Resident - University of Milan

Fondazione IRCCS Ca' Granda – Ospedale Maggiore Policlinico Milan – Department of Surgery

Chief Professor L. Boni

The Department of Surgery of the Policlinico Hospital in Milan is a leading centre in laparoscopic surgery, especially in oncological surgery of upper and lower gastrointestinal tract, IBD surgery, bariatric surgery, surgery of the adrenal gland, abdominal wall surgery, proctology surgery. Extensive experience has been gained in fluorescence guided surgery with Indocyanine Green, leading to a routine use in surgical procedures. The Department took part in a multicentre randomized control trial about the use of fluorescent cholangiography with Indocyanine Green during cholecystectomy. Clinical researches that have been undertaken, and currently in progress, are about: defining the best timing for neoadjuvant treatment in patients with rectal cancer; the role of surgery in fragile patients with colorectal cancer; defining the role of tumour-infiltrating regulatory T cells in patients with colon cancer. I have been involved in clinical management of surgical patients during day and night shifts and management of outpatients. I have gained surgical experience assisting and operating under supervision of professor Boni, with a special interest in laparoscopic surgery and fluorescence guided surgery.

October 2019 – April 2020 Resident – Fellowship in Minimally Invasive Surgery at Assia Medical Group, Tel Aviv

Assia Medical Group – Assuta Hospital – Tel Aviv - Israel

Chief Dr A. Szold

The Assia Medical Group of the Assuta Hospital is a Surgical Department specialized in minimally invasive surgery, abdominal wall surgery, oncological and functional surgery of upper and lower gastrointestinal tract, liver, pancreas and biliary tract surgery, bariatric surgery, breast surgery, surgery of the adrenal gland.

I am involved in daily surgical activities as an assistant of dr Szold and the other surgeons of the group.

During this period, I am also taking part in dry and wet laboratories for the development of instruments of the Human Xtension Company. The Human Xtension designs new devices for minimally invasive surgery with the intent to empower surgeon control and flexibility.
