

Grant	EAES Fellowship programme
Fellow	E.M. Mois from Romania
Host institution	IRCCS Ca' Granda Ospedale Maggiore Policlinico - Milano
Director	Prof. Luigi Boni
Daily routines Surgical/clinical/research activities	Majority of the time I have spent in the operating room I was involved in Clinical and research
Experience	colo-rectal laparoscopy - major colic resection: left laparoscopic hemicolectomy, right laparoscopic hemicolectomy - major rectal resection and transanal resection: anterior laparoscopic rectal resection, laparoscopic assisted rectal amputation adrenal laparoscopy limited small bowel laparoscopic resection with intra or extracorporeal anastomosis inguinal hernia laparoscopy - TEP for unilateral and bilateral inguinal hernia bariatric surgery (laparoscopy) - Sleeve gastrectomy and By-pass gastro- enteral Using ICG for a safety anastomosis in colo-rectal resections Using ICG for cholecystectomies
Tasks	watching and taking notes
Involvement	surgeries and research
Overall number & types of surgical procedures attended	120
Number of surgeries performed by the fellow	0
Number of surgeries attended as the first assistant	0
Number of surgeries attended as the second/third assistant	0
Number of surgeries attended as observer only (not scrubbed)	120
Specify approximately the number & types of procedures attended	colo-rectal laparoscopic resection - 70 laparoscopic cholecystectomies - 15 a few abdominal emergency - 5 adrenal resection laparoscopical - 10

Conclusion	<p>The experience I have gained here it will make be perform colo-rectal laparoscopic surgery in a more systematized manner, because I am a digestive surgeon and one of my domain of interest is colo-rectal surgery Also transanal resection it is another field that I have learn from this experience</p> <p>Another important thing is that I saw some other devices that I am not using routinely (Thunderbeat) and I'm thinking to start using in my daily practice Using ICG to verify the vascularization of the stumps it is also a new thing for me and it seems that on laparoscopic colo-rectal surgery can be usefully</p>
