LIVE ONLINE COURSE

ACCELERATE YOUR TRAINEES' LEARNING BY BECOMING A BETTER TRAINER

Train the Trainer

Teaching Surgeons How to Teach : Better Teaching, Faster Learning, Safer Surgery!

Operating is a skill. Teaching it is another. Surgery demands technical skill, precision and sharp decision-making; teaching demands the ability to explain, guide and engage. Lapco Train the Trainer gives you a structured, evidence-based approach to surgical education and practical techniques you can apply across various training situation to become a better trainer and inspire the surgeons you train.

YOU WILL:

- **Master How Surgeons Learn**
  So your teaching builds on the science of skill acquisition, not guesswork.
- **Apply a Structured Teaching Framework**
  So every session in theatre follows a consistent, proven structure.
- **Track and Sharpen Performance**
  So you can turn feedback into targeted, measurable improvement.
- **Strengthen Human Factors and Communication**
  So you build the non-technical skills that underpin safe, effective operating.

LAPCO SURGICAL TRAINER'S TOOLBOX

Real-world tools for different training situations.

YOU'LL LEARN HOW TO:

Understand Your Trainees
Read learning styles and expectations early.
